TAYLORMADE PONTON GAZEBO

Quick and easy way to gain additional shaded area on a pontoon boat. Top accommodates both 96" and 102" wide boats and extends out to 8' of coverage. Constructed of Hot Shot™ marine-grade polyester fabric. Top is strong, yet lightweight and is supported by shock-corded fiberglass pole framework that breaks down for convenient storage. Large interior radius allows you to sit comfortably w/out bending over and provides excellent head room. After initial installation of permanently mounted hardware to the playpen rail, the gazebo attaches easily and comes down in minutes. Comes complete w/shade top, frame, marine grade hardware and storage bag. Dimensions: 8'Lx102"W x50"H (approximately).

TAYLORMADE T-TOP SUN VISOR

Designed to extend the shaded area from a T-Top an additional 3'. Mounting to either the front or rear vertical posts, the angle of the shade can be changed to accommodate the angle of the sun. Frame is constructed of bright dipped anodized aluminum tubing w/marine grade fittings. Ultima™ fabric for the best in strength, UV stability and longevity. Fittings are permanently mounted, but shade is easy on/off with pull pins.

TAYLORMADE® COMFORT ZONE™ BOAT MISTING SYSTEM

Based on the theory of Evaporative Cooling. System forces water through specially designed misting nozzles creating a fog of ultra fine water droplets w/avg. size of 50 microns or less. Droplets are so small they can instantly flash evaporate, reducing the surrounding temperature as much as 30° instantly. System uses booster pump that draws only one amp, delivers 130psi, & keeps a flow rate as low as one gallon per hour (depends on number of nozzles installed). **System includes:** Booster pump w/mounting bracket, 25' of 1/4" Dia. black misting line, 7' water inlet tubing w/screened weighted anchor, 4 misting nozzles w/T-connector push-to-connect fittings for easy adjustments, 4 mounting clips to attach nozzle to top, 12V AC adapter plug, & pre-inline sediment filter.
